

Fujita Health University Fellowship program for foreign researchers

The Department of Neurosurgery, Fujita Health University offers fellowship program. This program can be conducted for a minimum of one month to maximum a year.

- ❖ Higher advanced training in microvascular surgery, spine surgery, skull base surgery and CT guided stereotactic surgery is offered in the department of Neurosurgery, Fujita Health University and at other super-speciality hospitals outside Fujita.
- ❖ During the training, you are expected to participate in academic activities, morning meetings, operation theaters.
- ❖ We request you to bear your travel expenses and your accommodation fees.
- ❖ Accommodation is available at the “Toyoake Dormitory” which is located inside our university area. The cost for the accommodation per month is approximately JPY 35,000~40,000.
- ❖ Those who show exceptional knowledge/skill may be granted a scholarship.
- ❖ After completion of training, a “Certificate of Training” will be awarded.
(To those who stay more than three months)
